SM-68B TECHNICAL FACILITIES

LITTLE ROCK AFB, ARKANSAS

SITES 1 THROUGH 18

PHASE II - CONSTRUCTION

VOLUME IV

CONTROL CENTER, ACCESS PORTAL, PROPPELLANT TRANSFER SYSTEM

NOTE:

The source historical materials for this set of Blueprints were provided by the courtesy of Mr. Frederick Epler of the National Aerospace Trust (N.A.T.)

The National Aerospace Trust is a non-profit historical organization supported by the United States Air Force whose purpose is to preserve and document significant historical Air Force achievements and projects.

Changes made to source content were limited to removal of scanning blemishes and replacing original blueprint border for consistency. Miscellaneous information such as handwritten notes unrelated to the technical content were also removed to reduce clutter.
